June 2, Friday	School closes

Report of Local Executive Board

October 27, 1961

The year of 1960-1961 at the Montana School for the Deaf and Blind was entirely satisfactory in that progress and continued improvement was made along all lines. Our students continue to exhibit good scholastic ability reflecting a sound educational program. The health of the students is very carefully watched and checked so that we continue free of any general outbreak of sickness or disease. The "after-school" hours of the students are very well planned and programmed weeks ahead of time, so that this important part of the student's life is properly filled with interesting, supervised and beneficial outside activities.

Our physical plant is good and appears to be adequate for our present student body. Mr. Harris is to be complimented on his regular maintenance policy of keeping the plant in good operation and appearance.

One of our problems that is awaiting proper solution is the installation of a Fallout Shelter for all of the students and faculty of the school. We have started on the program and are at present awaiting advice from the Federal Agency when one of their representatives calls on us in response to our request.

The Board notes with regrets that Mrs. Sovereign, who has been Secretary and Bookkeeper for Mr. Harris for the past 13 years had to resign because of ill health. We join in wishing her well.

**Local Executive Board of the Montana
School for the Deaf and Blind**
Geordies K. Kotz (Mrs. O.B.), President
John E. Warner, Secretary
Art Jardine, Member.

Superintendent's Report

OCTOBER, 1960

The Montana School for the Deaf and Blind opened Wednesday, September 7. Enrollment this year stands at 97 as compared to 99 at the same date last year and 98 the year before. The enrollment divides into 63 in the Department for the Deaf and 34 in the Department for the Blind. It is pleasing to note that one little girl was entered as a sight saving student and returned to her local school a week later. The parents had been advised by their ophthalmologist to enroll her in a state school when they thought of moving to another state. When they decided to stay in Montana, he explained that the sight saving books are available to every school in this state.

PHYSICAL PLANT

The main building was thoroughly cleaned and prepared for the opening of school. A contract was let for the painting of all screens and windows. This work was completed before the opening of school.

The opening of the new classroom building has necessitated moving of furniture and placing of shelves and blackboards. All staff members and students have cooperated cheerfully because this new addition has relieved overcrowded conditions to a great extent.

STUDENTS

School has been in operation long enough for new students to overcome the feeling of loneliness that the first few days can bring. A good supply of play equipment and an experienced staff of houseparents and teachers have made the new children feel that this is really their second home. Entertainments and outings have started. The older boys and girls have worked out programs, with teacher sponsors, for week end outings to take advantage of fall weather. The goal of scholarship is not lost but is encouraged by these outings.

JANUARY, 1961 STUDENTS

The student population is 99 this year. The enrollment divides as follows:

Deaf Girls	34	Blind Girls	19
Deaf Boys	31	Blind Boys	15

Last year at the same time the total enrollment was 100.

The Christmas program this year was under the direction of Miss Emma Koetitz, Mrs. Flo Ellen Hippe, Mr. Jay Barker, and Mrs. Elizabeth Cox, assisted by all members of the staff. The school auditorium was filled to capacity and an open house was held. Programs were taped for broadcast on local radio stations, as well as television.

HEALTH

The health of the children has been excellent this fall. There were no contagious diseases. All new children have been thoroughly tested and all tests were negative. Vaccinations and immunizations have been completed. Very few student days have been lost to school work due to minor illnesses.

PHYSICAL PLANT

All buildings are in good repair. The new classrooms have proven most satisfactory and the space previously used for these classes has, to a large extent, relieved crowded conditions in the music department, in the library and in girls' recreational area.

APRIL, 1961

STUDENTS

Enrollment remains at 99, with 65 children in the department for the deaf and 34 in the department for the blind. There will not be a graduating class this year because we have taken in a beginners class in the department for the deaf on alternate years whenever it has been possible, without having the class too large for speech development work.

The word "beginners" is used since it is necessary to develop vocabulary, speech, and general information with deaf children before they can do the first grade work expected of children with normal hearing.

In addition to the 34 pupils enrolled in the department for the blind, there are 18 children with serious visual handicaps attending public schools in the state. The State Supervisor of Special Education is allowed quota credit by the American Printing House for the Blind for the purchase of sight-saving texts and other materials. He coordinates the program by keeping the materials in Helena so that they can be issued, as needed, and returned for later use by another student.

We appreciate the cooperation of the State Supervisor of Special Education in making it possible for these partially-sighted students to receive their education in public schools, in place of having to attend the School for the Blind. This type of coordinated program is being followed by more states every year.

Achievement tests, given in January, indicate that progress has been made commensurate with the learning abilities of our students.

Health has been very good with the exception of a few minor respiratory infections. On examination, one girl was found to show symptoms of diabetes. Her family was given this information, and they placed her in their local hospital for a month until she could return to school. Her condition is stabilized, so it presents no problem.

STAFF

Two or more people are planning to retire at the close of the school term. This may lead to one or more changes of position. Employees with years of service are given first consideration when a vacancy causes an opening for advancement. For that reason, the appointment list for the next school year is not submitted at this time. Perhaps, it will be ready for the next meeting of the State Board of Education.

FIRE MARSHAL

The State Fire Marshal inspected this school last summer. We have complied with his recommendations.

JULY, 1961 CLOSING OF SCHOOL

There was no graduating class this year, as we had been able to combine deaf children born during a two-year period into one class when this group entered school.

To give the parents and the public a suitable closing exercise, the department for the blind gave their annual music program the evening of Thursday, June 1. An open house was held following the program. All children went home for the summer vacation.

It is pleasure to report that three former students in the department for the blind graduated from public high school in June. Twins, Paul and Stanley Miller, graduated from high school in Butte. Joan Polson graduated from high school in Kalispell. The parents of these children cooperated by having visual corrections made when they were advised of the possibilities. All three students now have usable vision. Attendance at this school avoided the loss of school time during treatment.

Two students, Kathy Hensley and Dorothy Kanning, members of the eleventh grade in the department for the deaf, took the college entrance examinations for Gallaudet College. Both were accepted for admission this fall.

Gallaudet is the only college for the deaf. Enrollment is limited, so only about two per cent of the students attending schools for the deaf can hope to attend college. Gallaudet allows a fifth year of college preparatory work.

College entrance examinations are based on achievement ratings, so our students who are college material take the examination as juniors.

The two students who go to college will receive their diplomas next spring when the seven average students in their class graduate.

In the Montana School, deaf children with an exceptionally high potential are encouraged to carry on a coordinated informational reading program, starting about the fifth grade. This reading program is to present information which the normal children acquires through hearing. It also helps to overcome the barrier of language which every deaf child has.

PHYSICAL PLANT

The physical plant is in good repair. Houseparents and teachers made note of all points that need attention during the summer. All suggestions were typed and checked with those who will do the work. This avoids duplication of effort.

Hospital Report

1960—1961

Total Treated in School Hospital by Months

MONTH	OUT PATIENTS	BED PATIENTS	DAYS
Sept., 1960	418	4	4
Oct., 1960	495	10	24
Nov., 1960	481	15	24
Dec., 1960	312	6	10
Jan., 1961	571	5	14
Feb., 1961	602	1	2
Mar., 1961	640	8	16
Apr., 1961	520	20	36
May, 1961	406	4	14
	<u>4445</u>	<u>73</u>	<u>144</u>

All children were weighed every month. All were measured in September and in May. All showed satisfactory increase in height and in weight.

8 new entrants were given complete physical examinations. All tests were negative.

1 girl was found to have diabetes. She was programmed by her family physician and returned to school.

1 pupil was taken to the Clinic for shoulder x-ray.

1 pupil was taken to the neurological surgeon.

1 pupil was taken to the Clinic for chest x-ray - negative.

1 pupil was taken to the Clinic for a complete physical examination under the Vocational Rehabilitation program.

4 pupils were taken to an ophthalmologist, 1 for glasses, 3 for check.

1 pupil was taken to a dermatologist, 3 calls.

9 pupils were taken to the dentist, 7 extractions, 10 fillings.

11 pupils received C-R Bicillin, 15 calls.

1 pupil had mumps. There were no complications.

There were no operations.

There were no fractures.

The above report submitted by Minnie H. Wallette, School Nurse

Physician's Report

GREAT FALLS CLINIC

June 12, 1961

Department of Pediatrics

Mr. Glenn Harris, Superintendent
Montana School for the Deaf and Blind
Great Falls, Montana

Dear Mr. Harris:

It is with a great deal of pleasure that when I come to the end of the school year, I can look back to a very good record. Last year's record was good, but this is even better. The credit, of course, goes to you and Mrs. Walette for your tremendous interest in the children's medical welfare, and also, the help of all the teachers and the employees, without which we would not have such prompt reporting of illnesses.

I hope that all of the children have a good Summer and that you and the staff have a well deserved rest.

Very sincerely,
Joseph W. Brinkley, M.D.

General Information

HISTORY: The School for the Deaf and Blind was established in September, 1893, and until 1937 was located in Boulder, on the same campus as the State Training School. In October, 1937 the school was separated from the Training School and moved to new quarters in Great Falls.

LOCATION: The Montana School for the Deaf and Blind is situated at the eastern city limits of Great Falls. Highway 87 and 89 pass the school at 38th street. The address is 3800 Second Avenue North.

PURPOSE: The school is maintained by the state under the direction of the State Board of Education for the education of children too deaf or too blind to make satisfactory progress in the public schools.

AGE: Pupils between the ages of 6 and 18 are eligible for admittance but no student who has completed high school may be enrolled.

TRAINING: The department for the deaf is conducted by a staff of well-trained experienced teachers. Lip reading and speech are the chief methods of instruction. In addition to regular school subjects offered in all grades through 12, vocational training is provided. Among trades taught deaf boys are: printing, woodworking, general shop; to girls: sewing, dressmaking, domestic science and typewriting.

The School for the Blind is equipped to give academic instruction either in the Braille or sight-saving department. Vocational training and music are on the curriculum.

RESIDENCE: The institution is a boarding school, and is in session from the second Wednesday in September until the second Wednesday in June with exception of Christmas holidays. Day pupils are admitted, but all students are entitled to free board and room.

COST: There is no cost for tuition, books, living expenses or care. Parents are expected to provide transportation for pupils, clothing and approximately \$20 per year for incidental expenses such as shoe repairs, haircuts, toothpaste, etc. Section 1463, Chapter 29 of the Revised codes of Montana provides for county assistance for indigent families.

ADMISSION: Pupils are admitted on trial subject to their physical and mental ability to receive instruction. Upon request, an application blank will be provided by the school. The application must be completely filled out and returned together with a certificate of good health and freedom from contagious or infectious diseases. A transcript of credits or letters from teacher or principal is also required when the pupil is transferred from the public schools.

HEALTH: A resident nurse is on duty at the school at all times and a clinic is provided for children who are ill. Ordinary medical care is provided free and operations and extended treatment must be paid for by parents.

RECREATION: Pupils are given an opportunity for three hours of physical training weekly under direction. Recreation ground and rooms are provided, and school parties, moving pictures and other entertainments are scheduled regularly. Pupils enjoy skating, hiking, basketball, and many other types of recreation. Radios, phonographs and pianos are placed in recreation rooms.

CLOTHING: Uniforms or special clothing are not required. Every garment must be plainly marked in indelible ink or by means of woven name tapes which may be obtained at department stores or mail order houses. Linens, bedding and towels are provided by the school. A list of suggested clothing may be obtained upon request. Clothing is laundered locally.

GENERAL CARE: Supervisors are employed at the school who serve as housemothers and counsellors. Nourishing, well balanced meals are served. There is plenty of milk, butter, vegetables, meat, potatoes and other wholesome food.

VISITORS: Parents, relatives and friends may visit their children as often as they wish. Other visitors are welcomed on school days (Monday through Friday) between the hours of 9:30 and 11:30 a.m. and 1 and 4 p.m. Groups of persons desiring to visit the school may come at the other times by special arrangement. Pupils may go out during weekends, or after school hours with parents, relatives or friends by advising us in advance. However, no pupil is permitted to go except with parents, unless we have written permission from home.
